Career Paths - Find your path

2021 EDUCAUSE Horizon Report | Information Security Edition

- Cloud Vendor Managment Endpoint Detection and Response
 - Multifactor Authentication (MFA)/Single Sign-On (SSO)
 - Preserving Data Authenticity/Integrity
 - Research Security
 Student Data Privacy and Governance

This report profiles important trends and key technologies and practices shaping the future of information security, and envisions a number of scenarios and implications for that future. It is based on the perspectives and expertise of a global panel of leaders from across the higher education landscape

QuickTalks...

Member QuickTalk | Core Data Service (CDS) Study Group

Online June 07, 2022

Join our study group to connect with EDUCAUSE experts and your peers about how to get the most out of your CDS experience.

Member QuickTalk | Cyber Insurance: Renewals, Rate Increases and Shared Strategies

Cyber Insurance has become an increasingly important topic for our members that is likely to continue evolving for higher education. As we look to 2022 and upcoming insurance renewals, we would like to provide members an opportunity to discuss their experiences and questions, as well as share strategies to address premium increases and new requirements imposed by underwriters and carriers.

To get the most from the QuickTalk experience, we encourage attendees to review the recently published FAQ on cyber insurance for higher education. This will be an interactive event and all are invited to contribute their questions and expertise.

QuickTalk Moderators

Aaron Baillio CISO, University of Oklahoma

Brian Kelly Director of the Cybersecurity rogram, EDUCAUSE

Cloud Services Updates

- NET+ Kion added to NET+ program!
- Cloud Scorecard
- Institutional Profiles
- Cloud Vendor Risk Management service evaluation

My Portfolio Updates

- CrashPlan (34), Duo (200), LastPass (46), Palo Alto Networks (3), Splunk (33) updates
 - NET+ Splunk added Splunk Cloud to the program!
 - MFA Community Survey 2020 report coming out!
- Current Community Calls CrashPlan (20) and Duo (60-120).
 Might restart PAN and Splunk.

Exploring new service providers

National Research and Education Network Updates

- DDoS Mitigation using Radware cloud-based service
- Routing Integrity Initiative requires the community's adoption of best practices that strengthen the resilience and reliability of data movement across the R&E network ecosystem to support our shared missions
 - Routing Security as defined by Mutually Agreed Norms for Routing Security (see MANRS.org)
 - Hardening of network devices (MFA authentication, regular review of firmware, logging, etc.)
 - Detection and mitigation of DDoS attacks
 - Resilient cloud connectivity
 - IPv6 Deployment
 - Routing Integrity Assessment service contact manrs@internet2.edu

MUTUALLY AGREED NORMS FOR ROUTING SECURITY (MANRS) IMPLEMENTATIONS
